

Jurassic English™

Comprehensive Academic Curriculum Framework

Level 1-Level 5 Ecosystem for Students, Parents, Centers, and Schools

Strategic Curriculum Thesis

Jurassic English™ should be structured as a five-level literature-based academic reasoning ecosystem. Students progress from first stories and emotional language into evidence-based interpretation, CEIW academic writing, systems thinking, and exam-transfer readiness. The framework unifies Student Academy, School Framework, Digital Reasoning Engine, Academic Thinker Program, and IELTS Reasoning Lab while keeping each commercial brand distinct.

Brand Layer	Function	Primary Audience
Jurassic English™ Student Academy	Direct student pathway: fluency, reasoning, writing, confidence, portfolio evidence	Students, parents, homeschool families
Jurassic English™ School Framework	Institutional curriculum architecture, teacher training, QA, implementation fidelity	Schools, centers, academic directors
Jurassic English™ Digital Reasoning Engine	Digital reasoning scaffold, CEIW argument map, portfolio/progress evidence	Students, teachers, parents, schools
Jurassic English™ Academic Thinker Program	Premium literature, seminar, academic writing, and university-readiness track	High-performing students, international-school learners
Jurassic English™ IELTS Reasoning Lab	Exam-transfer program replacing templates with real argument construction	IELTS, Cambridge, IB, university-pathway students

Prepared for strategic curriculum productization, center implementation, and parent-facing academic positioning.

1. Executive Summary

Jurassic English™ is best organized as a five-level academic reasoning pathway rather than a conventional English course. Its central asset is not a textbook sequence; it is a repeatable reasoning architecture built around authentic literature, Regulation-Before-Reasoning, the Jurassic Thinking Cycle™, CEIW academic writing, and the Digital Reasoning Engine.

Primary Curriculum Recommendation

Adopt a Level 1-Level 5 progression that serves three commercial contexts at once: (1) student/parent subscription and cohort learning, (2) center or school implementation, and (3) digital portfolio evidence through the DRE. Each level should have defined CEFR targets, reasoning outcomes, text types, learner supports, assessment evidence, and product-channel mapping.

2. Strategic Curriculum Identity

Element	Definition
Curriculum Name	Jurassic English™ Learning Ecosystem
Academic Category	Literature-based English reasoning curriculum
Core Promise	From English fluency to academic thought
Student Promise	Read deeper, speak smarter, write stronger, and defend ideas in English
Parent Promise	Your child will not only learn English; they will learn how to think in English
Center/School Promise	A coherent English curriculum architecture connecting literature, speaking, writing, assessment, teacher delivery, neuroinclusive support, and visible progress

3. Five-Level Academic Progression Model

Level	Student Stage	Age	CEFR	Academic Focus	Primary Brand Fit
Level 1: Foundation	First Stories, First Thinking	4-8	Pre-A1-A1	Emotional language, oral reasoning, basic claim + evidence	Student Academy / School Framework
Level 2: Early Reasoner	Stories to Evidence	7-11	A1-A2	Comprehension, vocabulary, structured speaking, early justification	Student Academy / DRE
Level 3: Developing Analyst	From Opinion to Interpretation	10-14	A2-B1	Literary analysis, Accountable Talk, paragraph reasoning	Student Academy / School Framework
Level 4: Academic Builder	Interpretation to Argument	13-16	B1-B2	CEIW writing, seminars, academic vocabulary, essay structure	Academic Thinker / DRE
Level 5: Advanced Thinker	Systems, Warrants, Exam Transfer	15-18+	B2-C1	Intertextual argument, dual warrant, IELTS/IB/Cambridge readiness	Academic Thinker / IELTS Lab

4. Non-Negotiable Curriculum Principles

Principle	Academic Meaning	Public-Facing Translation
Authentic Literature First	Texts preserve intellectual, syntactic, rhetorical, and ethical complexity. Scaffolds support access; they do not replace rigor.	Students read meaningful stories and texts that make them think.
Regulation Before Reasoning	Learners need cognitive and emotional readiness before higher-order performance can be expected.	Confidence grows when learning is structured safely.
Jurassic Thinking Cycle™	Analyze - Evaluate - Justify - Reflect governs discussion, writing, assessment, and portfolio evidence.	Students learn how to explain and defend ideas.
CEIW Academic Writing	Claim - Evidence - Interpretation - Warrant converts thinking into structured academic response.	Students learn how to write with evidence and purpose.
Visible Portfolio Evidence	Progress is captured through speaking, writing, reasoning maps, reflections, and parent-facing reports.	Parents and centers can see growth, not just hear promises.

5. Level 1 - Foundation: First Stories, First Thinking

Specification	Detail
Approximate Age	4-8
CEFR Range	Pre-A1-A1
Core Learner Need	Confidence, emotional language, story comprehension, oral participation
Primary Product Fit	Student Academy Starter / School Framework Foundation
Parent Promise	Your child learns to speak, notice, explain, and connect ideas in English.

Academic Purpose

Level 1 introduces English as a language of noticing, feeling, naming, and explaining. Students are not pushed into formal academic writing too early. They build the foundation of reasoning through oral language, pictures, stories, movement, feeling vocabulary, and simple evidence.

Core Learning Outcomes

Skill Area	Outcome
Listening	Follow short stories, teacher prompts, and peer responses
Speaking	Use simple sentences to describe characters, feelings, and events
Reading	Recognize key words, images, story sequence, and repeated language
Writing / Mark-Making	Draw, label, copy, and complete simple sentence frames
Reasoning	Make basic claim + evidence statements orally
Reflection	Connect story feelings to personal experiences

Core Curriculum Modules

Module	Focus
Story World Entry	Characters, setting, problem, feeling
Word Fossil Hunt	Emotional and descriptive vocabulary
Picture Evidence	What do you see that shows this?
Because Bridge	I think ___ because ___.
Feeling Reflection	This reminds me of...
Green Zone Learning	Readiness, calm participation, sensory supports

Assessment and DRE Evidence

Evidence Type	Example / DRE Use
Oral claim	The boy is sad.
Evidence link	Because he is alone.
Portfolio artifact	Word Fossil + Because Bridge card
DRE feature	Feeling selector, image-tap evidence, visual portfolio card

6. Level 2 - Early Reasoner: Stories to Evidence

Specification	Detail
Approximate Age	7-11
CEFR Range	A1-A2
Core Learner Need	Vocabulary expansion, sentence-level explanation, early paragraph structure
Primary Product Fit	Student Academy Starter/Core / DRE Explorer-Builder
Parent Promise	Your child begins using English to explain ideas, not just answer questions.

Academic Purpose

Level 2 moves students from story response into early interpretation. Learners begin to understand that English can be used to explain motive, choice, consequence, fairness, and emotion.

Core Learning Outcomes

Skill Area	Outcome
Listening	Understand short literary discussions and teacher questions
Speaking	Give short explanations using because, but, so, maybe, I agree/disagree
Reading	Identify character motives, conflicts, and key events
Writing	Produce 3-5 sentence responses with claim and evidence
Reasoning	Distinguish opinion from evidence
Reflection	Explain personal or moral connection to story events

Core Curriculum Modules

Module	Focus
Character Evidence	What characters say, do, feel, and choose
Choice and Consequence	Why choices matter
Fair / Unfair Questions	Early moral reasoning
Agree / Disagree Talk	Structured peer discussion
Evidence Sentence Frames	I know this because...
Mini-Reflection Journal	Personal connection and transfer

Assessment and DRE Evidence

Evidence Type	Example / DRE Use
Claim sentence	I think the character was brave.
Evidence sentence	He helped his friend when he was scared.
DRE feature	Guided prompt cards, evidence bank, voice response, parent summary

7. Level 3 - Developing Analyst: From Opinion to Interpretation

Specification	Detail
Approximate Age	10-14
CEFR Range	A2-B1
Core Learner Need	Deeper comprehension, accountable talk, paragraph reasoning, literary vocabulary
Primary Product Fit	Core Student Academy / School Framework Intermediate
Parent Promise	Your child moves from fluent English to academic English thinking.

Academic Purpose

Level 3 is the transition from ordinary English learning to structured academic interpretation. Students learn that strong answers must be supported, challenged, refined, and connected to the text.

Core Learning Outcomes

Skill Area	Outcome
Listening	Follow discussion, compare views, and respond to peer ideas
Speaking	Use Accountable Talk to agree, challenge, press, and extend
Reading	Analyze character development, conflict, theme, and point of view
Writing	Produce structured analytical paragraphs
Reasoning	Evaluate competing interpretations
Reflection	Explain how a text changes or complicates their view

Core Curriculum Modules

Module	Focus
Theme Excavation	Recurring ideas and conflicts
Character Development	Motive, change, contradiction
Accountable Talk	Marking, pressing, extending
Interpretation Ladder	Literal -> inferential -> thematic
Analytical Paragraphs	Claim, evidence, explanation
Discussion to Writing	Turn oral reasoning into written reasoning

Assessment and DRE Evidence

Evidence Type	Example / DRE Use
Socratic discussion note	Student challenges or extends a peer idea
Analytical paragraph	Claim + evidence + explanation
DRE feature	Thinking Cycle dashboard, evidence map, paragraph scaffold, portfolio timeline

8. Level 4 - Academic Builder: Interpretation to Argument

Specification	Detail
Approximate Age	13-16
CEFR Range	B1-B2
Core Learner Need	Essay writing, academic vocabulary, argument structure, exam transfer
Primary Product Fit	Advanced Student Academy / Academic Thinker Program / DRE Scholar
Parent Promise	Your child learns how to build strong academic arguments in English.

Academic Purpose

Level 4 formalizes academic writing and interpretation. Students move beyond paragraph-level responses into extended argument, comparative interpretation, seminar discussion, and early exam-transfer skills.

Core Learning Outcomes

Skill Area	Outcome
Listening	Follow seminars, identify assumptions, and evaluate arguments
Speaking	Defend claims using textual evidence and academic vocabulary
Reading	Analyze authorial choices, symbols, structure, tone, and perspective
Writing	Produce CEIW-based essays and comparative responses
Reasoning	Distinguish evidence, interpretation, assumption, and warrant
Reflection	Evaluate personal reasoning habits and revision needs

Core Curriculum Modules

Module	Focus
CEIW Essay Construction	Claim, Evidence, Interpretation, Warrant
Authorial Choice Analysis	Tone, structure, syntax, imagery
Comparative Thinking	Compare characters, themes, conflicts
Seminar Argumentation	Defend, revise, and extend claims
Academic Vocabulary System	Cause, implication, contrast, concession
Exam Transfer	Cambridge, IB, IELTS-style reasoning tasks

Assessment and DRE Evidence

Evidence Type	Example / DRE Use
CEIW paragraph	Full claim-evidence-interpretation-warrant
Seminar performance	Student defends and revises idea
DRE feature	CEIW builder, argument map, revision tracker, formative feedback

9. Level 5 - Advanced Thinker: Systems, Warrants, and Exam Transfer

Specification	Detail
Approximate Age	15-18+
CEFR Range	B2-C1
Core Learner Need	Advanced academic writing, critical theory, IELTS/IB/Cambridge readiness, university preparation
Primary Product Fit	Academic Thinker Program / IELTS Reasoning Lab / School Advanced Tier
Parent Promise	Your child develops the reasoning behind high-level academic and exam performance.

Academic Purpose

Level 5 is the advanced academic tier. Students work with complex literature, public argument, philosophical questions, ecological systems, media language, and high-stakes academic writing. The focus is no longer only comprehension or paragraph control; it is defensible academic reasoning under pressure.

Core Learning Outcomes

Skill Area	Outcome
Listening	Evaluate complex lectures, seminars, and academic arguments
Speaking	Participate in high-level seminars and defend nuanced positions
Reading	Analyze rhetoric, ideology, systems, discourse, and intertextuality
Writing	Produce extended CEIW essays, IELTS Task 2 arguments, and comparative academic writing
Reasoning	Construct cultural, moral, and ecological warrants
Reflection	Evaluate how language shapes belief, power, identity, and systems

Core Curriculum Modules

Module	Focus
Advanced Rhetorical Excavation	Syntax, irony, omission, ideological language
Dual Warrant Writing	Cultural warrant + ecological/systemic warrant
Systems Thinking in Literature	Iceberg Model, causal loops, connection circles
IELTS Argument Lab	Task 2 reasoning, Speaking Part 3, evidence logic
Intertextual Essay Writing	Compare across genres, eras, and systems
University Readiness Portfolio	Academic writing, seminar performance, reflective statement

Assessment and DRE Evidence

Evidence Type	Example / DRE Use
IELTS Task 2 essay	Reasoned response using CEIW
Seminar transcript	Student defends and revises argument
DRE feature	Advanced CEIW builder, Dual Warrant map, IELTS task simulator, academic portfolio

10. Brand-Specific Curriculum Architecture

A. Jurassic English™ Student Academy

Product	Level Fit	Purpose
Student Thinking Diagnostic	Levels 1-5	Entry assessment and placement
Starter Academy	Levels 1-2	Confidence, stories, early reasoning
Core Academy	Levels 2-3	Speaking, evidence, paragraphs
Advanced Academy	Levels 3-4	Academic English, essays, literature
Academic Thinker Track	Levels 4-5	High-performance academic reasoning

B. Jurassic English™ School Framework

Institutional Deliverable	Purpose
Curriculum Map	Aligns Levels 1-5 to age, CEFR, outcomes, and text progression
Teacher Training	Ensures fidelity and consistent delivery
Assessment Rubrics	Makes reasoning assessable and reportable
Neuroinclusive Infrastructure	Supports diverse learners with access design
DRE Implementation	Captures progress and portfolio evidence
Annual Review	Protects standards and continuous improvement

C. Jurassic English™ Digital Reasoning Engine

Level	DRE Role	Student Output
Level 1	Visual evidence + feeling vocabulary	Word Fossil + Because Bridge
Level 2	Guided claim + evidence	Short reasoning card
Level 3	Thinking Cycle map	Analytical paragraph
Level 4	CEIW essay scaffold	Academic argument
Level 5	Advanced argument + Dual Warrant	IELTS/IB/university-ready portfolio

D. Academic Thinker Program and IELTS Reasoning Lab

Track	Target Learner	Curriculum Role	Core Message
Academic Thinker Program	Students with functional English who need deeper literature, essay, and seminar ability	Premium academic pathway for Levels 4-5	For students who can speak English but need to think, write, and argue academically in English.
IELTS Reasoning Lab	IELTS/Cambridge/IB/university-pathway students	Exam-transfer program focused on argument, fluency, coherence, and evidence logic	Stop memorizing templates. Build arguments that survive pressure.

11. Standards and Alignment Model

Standard / Framework	Jurassic English™ Use
CEFR	Language progression from Pre-A1 to C1
CCSS ELA	Evidence-based reading, writing, speaking/listening
Cambridge	Academic English, literature, and exam readiness
IB	Inquiry, interpretation, global contexts
IELTS	Argumentation, fluency, coherence, academic vocabulary
UDL	Multiple means of representation, engagement, and expression
iPGCE / PGCE	Teacher reflection, planning, assessment, inclusive practice
UNESCO ESD / Ecological CLIL	Systems thinking, ecological warrant, global responsibility

12. Neuroinclusive Built for Every Learner Layer

Learner Profile	Curriculum Support	Parent / Center-Facing Message
ADHD / executive-function needs	Movement transitions, visual timers, task chunking, writing sprints	Better task architecture, not lower expectations
Dyslexia / decoding fatigue	Audio support, TTS, guided tracking, chunked authentic text	Preserve serious texts while reducing decoding overload
Anxiety-sensitive learners	No cold-calling, private reflection, rehearsal before speaking	Confidence grows when participation is structured safely
Autistic learners	Visual schedules, explicit transitions, emotion mapping, concrete roles	Structure reduces hidden classroom ambiguity
Twice-exceptional learners	High challenge, flexible output, reduced transcription load	High ability and learning difficulty can exist together
General ESL learners	Vocabulary previews, sentence frames, discussion routines	All learners benefit from visible structure

13. Academic Year Structure

Level	Texts / Units	Lessons	Portfolio Artifacts
Level 1	8-10 story units	32-40 lessons	8-10 reasoning cards
Level 2	8-10 story/literature units	32-40 lessons	10-12 claim-evidence samples
Level 3	6-8 literature units	36-48 lessons	6-8 analytical paragraphs
Level 4	4-6 major text units	40-60 lessons	4-6 CEIW essays
Level 5	3-5 advanced thematic units	40-60 lessons	Academic portfolio / exam dossier

Recommended Unit Cycle

Stage	Purpose
Regulate	Readiness and emotional access
Encounter	Read, listen, view, annotate
Analyze	Excavate language, character, event, rhetoric
Evaluate	Judge motive, fairness, meaning, system
Justify	Claim + evidence + interpretation + warrant
Reflect	Personal, social, academic, ecological transfer
Publish	Portfolio artifact / parent or teacher report

14. Assessment System

Domain	Level 1 Evidence	Level 5 Evidence
Comprehension	Story retell	Rhetorical / ideological analysis
Speaking	Simple explanation	Seminar defense / IELTS Speaking Part 3
Writing	Claim + evidence sentence	CEIW essay / IELTS Task 2
Reasoning	Because statement	Dual warrant / systems analysis
Reflection	Personal connection	Ethical, cultural, ecological transfer

Rubric Bands

Band	Descriptor
Emerging	Understands basic idea but needs heavy support
Developing	Explains idea with partial evidence
Secure	Uses evidence and reasoning independently
Advanced	Interprets, justifies, qualifies, and transfers thinking

15. Product-to-Level Commercial Map

Level	Student Academy	School Framework	DRE	Academic Thinker	IELTS Lab
Level 1	Starter Academy	Foundation implementation	Explorer	Not primary	Not applicable
Level 2	Starter/Core Academy	Foundation/Primary implementation	Explorer/Builder	Early enrichment	Not applicable
Level 3	Core Academy	Intermediate implementation	Builder	Entry Academic Thinker	Pre-IELTS reasoning
Level 4	Advanced Academy	Intermediate/Advanced implementation	Scholar	Core Academic Thinker	IELTS Foundation
Level 5	Advanced / Premium	Advanced implementation	Scholar/Academy Plus	Premium Academic Thinker	Core IELTS Lab

16. Center Implementation Model

Phase	Center Action	Jurassic English™ Deliverable
1. Diagnostic Intake	Place students by level	Student Thinking Diagnostic
2. Program Selection	Choose Level 1-5 pathway	Level map + parent explanation
3. Teacher Onboarding	Train delivery staff	Teacher guide + lesson routines
4. Pilot Cohort	Run 6-8 week cycle	Sample lessons + DRE templates
5. Parent Reporting	Show visible progress	Portfolio + parent report
6. Expansion	Add levels/tracks	Licensing / subscription / partnership

17. First-Year Rollout Recommendation

Phase	Launch Priority	Strategic Purpose
Phase 1: Build the Foundation	Level 1-2 Starter/Core Academy; Level 3 Core Academy; Level 4-5 IELTS Reasoning Lab; DRE template system; parent reporting	Validate the pathway, produce evidence, and avoid overbuilding before revenue
Phase 2: Build the Premium Track	Academic Thinker Program; CEIW Writing Studio; seminar cohorts; Level 5 Dual Warrant module	Increase premium value and differentiate from generic tutoring
Phase 3: Institutionalize	School Framework license; teacher training certification; center partner package; DRE dashboard; annual curriculum review	Scale through schools and centers while preserving fidelity

18. Final Curriculum Positioning Statements

Brand	Positioning Statement
Student Academy	A five-level student pathway that develops English fluency, literature comprehension, academic reasoning, structured writing, and visible learner confidence.
School Framework	A standards-informed institutional curriculum architecture for schools and centers that need coherent English progression, teacher training, neuroinclusive delivery, and measurable reasoning outcomes.

Brand	Positioning Statement
Digital Reasoning Engine	A digital reasoning scaffold that helps students build claims, organize evidence, construct CEIW arguments, and generate portfolio proof.
Academic Thinker Program	A premium academic track for students preparing for international school, literature essays, IB/Cambridge/AP-style writing, university readiness, and high-level communication.
IELTS Reasoning Lab	An exam-transfer program that replaces memorized templates with real argument-building, speaking confidence, and CEIW-based academic writing.

Master Curriculum Tagline

Jurassic English™: From English Fluency to Academic Thought.

Supporting line: A five-level literature-based pathway that helps students read deeply, speak clearly, write with evidence, and think in English.

19. Source Basis

This framework was structured from Jurassic English™ / World Wise Learning source themes in Google Drive, including the Products & Services Blueprint, v3.5 Thought Architecture, Authentic Literature rules, Neuroinclusive Infrastructure, Regulation-Before-Reasoning, Universal Design for Learning, Digital Reasoning Engine positioning, CEIW, buyer/persona alignment, Vietnam market structure, parent/student positioning, and institutional-versus-student offer architecture.

20. Confidence, Assumptions, and Blind Spots

Category	Assessment
Confidence	High. The five-level curriculum architecture is strongly supported by the source materials: JE already spans ages 4-18+, CEFR A0-C1, uses the Thinking Cycle™, applies CEIW at advanced levels, and identifies the DRE as the digital scaffold for reasoning and portfolio evidence.
Key Assumption 1	The five levels must serve both direct-to-student sales and center/school implementation without collapsing into one confusing offer.
Key Assumption 2	The DRE should first operate as a structured reasoning and portfolio scaffold, not as a full LMS replacement.
Key Assumption 3	IELTS should be positioned as reasoning transfer, not test tricks or template memorization.
Blind Spot 1	Authentic literature strengthens academic credibility but demands careful scaffolding for lower-level ESL students.
Blind Spot 2	The five-brand ecosystem is powerful but can confuse buyers unless each brand has its own landing page, CTA, and buyer-specific message.
Blind Spot 3	Exam-outcome claims must remain evidence-based until pilots produce before/after writing, speaking, and portfolio data.
