# 1. The pilot at a glance

**Why run a pilot:** to give parents visible evidence of growth, to check that your teacher runs every lesson stage, and to build your first parent references before you launch a full course.

| Pilot type | Class size | Level | Notes |
|---|---|---|---|
| Centre's first pilot class | 6–10 | Usually L2 or L3 | Families enrol directly |
| School pilot (small) | 12–18 | Set by the school | Part of a whole-school trial |

**Length:** 8 weeks recommended (a mid-pilot parent message and a portfolio audit fit in). Use 6 weeks only when the calendar forces it.

**Before week 1, the teacher checks:**

- ☐ Observation checklist reviewed (what a full lesson looks like)
- ☐ Universal Lesson Plan Template ready for every lesson
- ☐ Texts chosen and cleared (your own books, invented texts or public-domain texts; no copied published material)
- ☐ Sentence frames printed; hedging bank (L3+) and warrant bank (L4+) on the wall
- ☐ Portfolio method ready (paper folders or digital)
- ☐ Any learning-support plans read and in place
- ☐ Parent meeting dates booked
- ☐ First observation booked with the lead teacher

**The lesson routine (every lesson, seven stages):** Regulate (calm start) → Encounter (meet the text) → Analyze → Evaluate → Justify (CEIW writing or speaking) → Reflect → Publish (keep the work).

# 4. Level 3 Demo — Developing Analyst

| Field | Value |
|---|---|
| **Demo Title** | "From Opinion to Interpretation — The Returned Wallet" |
| **Target Age and CEFR** | Ages 10–12; A2 / B1 |
| **Demo Purpose** | To show the single most consequential CEIW move in the program: the move from opinion to interpretation — and to make the difference between *restatement* and *interpretation* visible in real time. |
| **Best Audience** | Parents of upper-primary and lower-secondary learners; school leaders considering the Student Academy or the School Framework; teaching candidates at the threshold between L2 and L4 |
| **Materials** | An invented one-page short story (Lan finds a classmate's wallet and quietly returns it without telling anyone); printed story with paragraph numbers; a three-field card (Claim, Evidence, Interpretation); a hedging bank on the wall ("seems, suggests, may, might, could, perhaps, in part") |
| **Duration** | 45 minutes |

## Teacher Script Notes

- Open with: "*We are going to read a short story today. Then we will do something very specific: we will say what the text suggests, not just what happened.*"
- During Analyze: model the difference. "*This is what happened: Lan returned the wallet. This is interpretation: it suggests Lan values honesty more than recognition. They sound similar. They are not.*"
- During Justify: when you see restatement-as-interpretation in real time, say it out loud and ask the class to repair it together. The vulnerability is the lesson.

## Full Lesson Flow

| Stage | Minutes | What Happens |
|---|---|---|
| Regulate | 5 | Box-breath (4-4-4-4); brief one-word emotional check-in around the room |
| Encounter | 9 | Teacher reads aloud; learners read silently; audio version available |
| Analyze | 8 | Whole-class list of every action Lan takes; mark which ones might tell us about her character |
| Evaluate | 6 | Sort the marked actions: which is the strongest evidence? Introduce the hedging bank |

SAMPLE · jurassicenglish.com/products

| Stage | Minutes | What Happens |
|---|---|---|
| Justify | 11 | Learners complete the three-field card using L3 frames; teacher circulates and surfaces "*This is interpretation*" vs. "*This is restatement*" live |
| Reflect | 4 | DRE prompt: "*Did you find yourself restating the evidence at any point? What pulled you to interpretation?*" |
| Publish | 2 | Cards collected; one Secure example shared aloud (anonymized); stored to portfolio |

## Student Output

- Three-field card, e.g.: "*The text suggests that Lan values honesty more than recognition. For example, the author writes that she returned the wallet without telling anyone. This may suggest that Lan thinks doing the right thing is more important than being praised for it.*"

## DRE / Portfolio Artifact

- Scanned card or DRE digital capture. Tagged: L3 / Justify+Reflect+Publish / Claim + Evidence + Interpretation / CEFR A2–B1 / CCSS Grade 4–5 / UDL representation+expression / Demo: Level 3.

## Assessment Snapshot

| CEIW Component | Bands Possible Today |
|---|---|
| Claim | Developing → Advanced |
| Evidence | Developing → Advanced |
| Interpretation | Emerging → Advanced (the threshold band today) |

## Parent / School-Facing Debrief (5 minutes)

- **For parents:** "*You saw the difference between 'this is what happened' and 'this is what it suggests.' That move is one that makes good readers into thinking readers. Your child will be making it in every subject they study, not only in English.*"
- **For school leaders:** "*This is the CEFR A2/B1 transition lesson — the move from opinion-with-reason to interpretation. It maps cleanly to CCSS R.2 (central ideas) and to Cambridge Flyers/KET writing descriptors. The hedging bank introduces academic registers from this level forward.*"
