

JURASSIC ENGLISH™

Jurassic Thinking Cycle Manual Set

Teach children to explain why, not just retell: four stages, every lesson, with any text you already teach.

Teacher + Student | **Ages 6–16+** | **CEFR Pre-A1 → C1** | **Any text**

Edition 1.1 · 27 October 2026

Licensed edition · single-buyer licence

SAMPLE · jurassicenglish.com/products

Contents

What you get in this pack 3

PART A · TEACHER MANUALS 4

Stage 1 · ANALYZE — Teacher Manual 5

Stage 2 · EVALUATE — Teacher Manual 10

Stage 3 · JUSTIFY — Teacher Manual 16

Stage 4 · REFLECT — Teacher Manual 22

PART B · STUDENT MANUALS 28

Stage 1 · ANALYZE — Student Manual 29

Stage 2 · EVALUATE — Student Manual 32

Stage 3 · JUSTIFY — Student Manual 36

Stage 4 · REFLECT — Student Manual 40

PART C · CEIW WRITING FRAMEWORK 44

1. Executive Overview 45

3. CEIW Components Defined 46

4. CEIW Depth by Level 47

5. CEIW Rubric (4-Band) 48

6. Sentence Frames and Hedging Banks by Level 49

7. Common Failure Modes and Repairs 51

8. Genre Adaptations 52

9. Teacher Modeling Routines 53

10. Portfolio Evidence Requirements 54

11. Audience Voice: Parent, Student, School 55

PART D · UNIVERSAL LESSON PLAN TEMPLATE 56

2. Lesson Header Specification 57

3. Lesson Body Specification 58

4. Adaptation Notes for Levels 1–5 63

5. Fillable Lesson Planning Version 64

6. Completed Model Lesson Example (Level 3) 67

Licensed for one teacher / one centre. © Jurassic English

What you get in this pack

The four-stage Jurassic Thinking Cycle (Analyze, Evaluate, Justify, Reflect) with the questions, teacher moves, sentence frames and rubric for every stage, for teachers and for students.

69	**printable A4 pages** This licensed PDF in four parts, with a contents page.
4	**teacher manuals** One per stage: objectives, prompt bank, talk moves, differentiation, common errors and a four-level rubric.
4	**student manuals** One per stage: what the stage asks, sentence frames, practice prompts by level, a self-check and the rubric in student language.
1	**CEIW Writing Framework** Claim, Evidence, Interpretation, Warrant and Impact, with depth by level, the rubric and sentence frames.
1	**lesson plan template** Plan any lesson through the four stages, with a fillable version and a completed model lesson.
10	**editable files** The same manuals and tools in the buyer's Drive folder.

The manuals work with any text you choose. No storybooks or third-party texts are included, named or quoted.

Licence. One teacher or tutor, with their own students. Printable, single-buyer licence. No resale, sharing, uploading or redistribution. © 2026–2027 WorldWise Learning and JurassicEnglish.com.

Stage 1 · ANALYZE — Teacher Manual

About This Teacher Manual

This manual provides the complete instructional architecture for Stage 1: ANALYZE of the Jurassic Thinking Cycle™. It is intended for licensed Jurassic English™ educators and should be read in conjunction with the Teacher & Curriculum Guidebook v3.0 (World Wise Learning, 2026).

The Four Commitments of a Jurassic English™ Teacher

1. Intellectual integrity: Never accept opinion without evidence; never answer your own question; never simplify a text to remove difficulty.
2. Structural discipline: All four Cycle stages present in every lesson; no stage skipped; no lesson ends without a Reflect prompt.
3. Relational attunement: Read regulation cues before demanding output; know your students' emotional baseline; never shame intellectual struggle.
4. Ecological responsibility: Model eco-reasoning language; incorporate ecological reflection at Level 3+; connect literature to the living world.

Stage Architecture

Parameter	Specification
Stage Number	1
Stage Name	ANALYZE
Cognitive Operation	Deconstruction of textual elements to establish objective understanding.
Bloom's Taxonomy Level	3 (Analysis)
Primary Target	Deconstruct
Lesson Slot (40-min model)	5–15 min
Primary Activity	Guided close reading; teacher models with think-aloud
Assessment Type	Observation
Assessment Form	Circulate; note which students identify implicit vs. explicit
Teacher Action	Prompt or redirect with clarification questions

Learning Objectives

By the end of a well-executed lesson at this stage, students will demonstrate the following measurable behaviours. Objectives apply across all five series levels; the complexity of evidence and language varies by CEFR band.

1. Identify characters, setting, and plot events with textual grounding
2. Distinguish explicitly stated information from implicit inference

Licensed for one teacher / one centre. © Jurassic English

SAMPLE · jurassicenglish.com/products

3. Recognise narrative perspective and authorial craft choices
4. Note emotional and psychological states of characters with evidence
5. Identify ecological and environmental details embedded in the setting

Standards Alignment

CEFR: Mapped to B1–C1 reasoning descriptors (Appendix D, Teacher Guidebook v3.0)

CCSS: Aligned to anchor standards for reading, writing, and speaking (Appendix E)

Bloom's Taxonomy: Level 3 (Analysis) — TARGET: Deconstruct

UNESCO ESD: Integrated at Level 3+ through the Ecocentric Reasoning Extension (Section 19)

Master Prompt Bank

Questions in Jurassic English™ are classified by cognitive demand. Recall and comprehension questions (Bloom's Levels 1–2) function as scaffolding only. The target zone for all lessons is Bloom's Levels 3–6, mapped to the Jurassic Thinking Cycle™ stages.

Prompt Type	Example Prompt	Purpose
Elicitation	'What is happening in this scene?'	Establish baseline comprehension
Clarification	'What evidence shows the character is afraid?'	Distinguish observation from inference
Structural	'How does the author organise this information?'	Reveal craft moves and authorial intention
Ecological	'What does the setting tell us about the relationship between the characters and their environment?'	Surface ecological and environmental dimensions

Accountable Talk Moves

These teacher moves are used specifically at the Analyze stage to push reasoning quality and maintain intellectual accountability.

Move	Teacher Language	Purpose
Challenging	'What in the text supports that?'	Push for evidence
Pressing	'Say more about why that matters.'	Deepen the observation
Revoicing	'So you are saying that… Is that right?'	Clarify and validate
Eco-Pressing	'What does this mean for the living world beyond the story?'	Extend to ecological reflection

Prohibited Dialogue Practices (Section 8.3, Guidebook v3.0)

Never answer your own question: wait 7 seconds; rephrase; pair-share first.

Never accept 'I don't know' without pressing: 'Take a guess. What might be one reason?'

Never praise content-free responses. Mark the reasoning instead: 'That was a analyze because…'

Licensed for one teacher / one centre. © Jurassic English

Differentiation Matrix

Accommodation lowers barriers; it never lowers cognitive expectations. The reasoning demand of the Analyze stage is preserved for all learners. Access pathways vary; the destination does not.

Language and Reasoning Differentiation

Task	Emerging	Developing	Proficient
Justification	Sentence frame: 'I think ___ because the text says ___.'	Paragraph frame: Claim + Evidence + partial warrant	Full CEIW paragraph independently
Discussion	Pair-share then whole group; scripted sentence starters	Partner discussion with open prompt	Spontaneous accountable talk; press peers for evidence
Reflection	Descriptive: 'What happened?'	Personal: 'Have you felt like this character?'	Ethical + Ecological: 'What does this mean for how we live?'

Special Learning Difference Accommodations

Learning Difference	Accommodation	Non-Negotiable Preservation
Dyslexia	Audio text; speech-to-text; oral justification accepted	Full CEIW structure still required orally
ADHD	Timer-based sprints (10 min max per task); movement breaks; fidget tools	All four Cycle stages completed; no stage skipped
Autism Spectrum	Predictable transition signals; written rather than oral option	Evidence-based reasoning required in written form
High Anxiety	Private written response before public sharing; no cold-calling	Still required to share reasoning, with advance notice given
EAL / ESL	Bilingual glossary; home-language pre-discussion; sentence frames	Target-language output required for assessed tasks

Common Errors and Correction Strategies

These are the most frequently observed errors at the Analyze stage, with evidence-based correction moves sourced from Jurassic English™ classroom data.

Error Type	What It Looks Like	Correction Move
Retelling instead of analysing	Student summarises the plot rather than identifying textual evidence and patterns.	'Where in the text does it say that? Find the exact words.'
Conflating inference and opinion	Student treats personal interpretation as textual fact.	'Is that stated in the text, or are you inferring it? What is the difference here?'
Shallow elicitation accepted	Teacher accepts one-word answers without pressing for evidence.	Always follow with: 'What evidence shows that?' Never accept the first response as final.

Licensed for one teacher / one centre. © Jurassic English

SAMPLE · jurassicenglish.com/products

Error Type	What It Looks Like	Correction Move
Ecological dimension skipped	Teacher focuses only on characters and ignores setting/environment prompts.	At least one Ecological prompt per Analyze stage at all levels; mandatory at Level 3+.

Assessment: Four-Level Reasoning Rubric

Assessment Philosophy (Section 9.1, Guidebook v3.0)

Jurassic English™ assesses the logic of the reasoning link, not merely the presence of a quotation.

A student who cites evidence but cannot explain the connection between evidence and claim has not yet demonstrated proficient reasoning.

The rubric is shared with students before instruction begins and used consistently for both formative and summative purposes.

Level	Analyze Stage Descriptor	Teacher Response
1 — Emerging	Retells plot; no specific textual evidence cited; confuses opinion with observation.	Provide sentence frame; model the missing component; require re-attempt before moving on.
2 — Developing	Identifies surface events; locates some evidence but without explicit citation; limited inference.	Press for the missing component by name. Identify exactly what is absent.
3 — Proficient	Clearly distinguishes explicit from implicit; locates purposeful evidence; identifies author craft choices.	Mark publicly; identify the specific strength; offer a stretch prompt.
4 — Advanced	Analyses multiple layers (character, craft, ecology); challenges surface readings; identifies subtext and authorial intent.	Use as a model for class discussion; ask the student to teach the structure to a peer.

Formative Assessment Sequence

Assessment Type	Timing	Form	Teacher Action
Observation	During Analyze stage	Circulate; note which students identify implicit vs. explicit	Prompt or redirect with clarification questions

WWL Portfolio Standard

Portfolio Component	Frequency	Student Task	Teacher Role
Best justification paragraph	Per unit (10x per level)	Self-select; annotate why this shows your best reasoning	Confirm selection is evidence-based; provide growth comment
Eco-reasoning reflection (Level 3+)	Per unit	Write: ‘My ecological thinking grew when I…’	Check for genuine ecological connection
CEFR self-assessment	Each term	Mark current level on the descriptor grid	Confirm or challenge; discuss in conference

Stage 1 · ANALYZE — Student Manual

How to Use This Manual

This manual is your personal reference guide for Stage 1: ANALYZE of the Jurassic Thinking Cycle™. Use it before, during, and after lessons to understand what this stage requires, access the academic language you need, practise with graduated prompts, and assess your own progress.

Keep this manual in your reading portfolio. Your teacher will refer to it during lessons. The sentence frames in Section 4 are available for all written and oral tasks.

Your Place in the Thinking Cycle

The Jurassic Thinking Cycle™ has four stages. You will complete all four in every lesson. No stage may be skipped.

Stage	What You Do	Your Position
01 ANALYZE	Break the text apart. Find evidence. Identify what is really there.	► YOU ARE HERE
02 EVALUATE	Make a judgment. Apply a standard. Decide what matters.	
03 JUSTIFY	Build your argument. Claim + Evidence + Warrant + Impact.	
04 REFLECT	Connect the text to your life, the world, and the living world.	

Stage 1: ANALYZE — Your Cognitive Target

Cognitive Operation: Deconstruction of textual elements to establish objective understanding.

Bloom's Level: 3 (Analysis) | Target: Deconstruct

What Is Analyze?

Deconstruction of textual elements to establish objective understanding.

In the Jurassic English™ framework, Analyze is Stage 1 of the Jurassic Thinking Cycle™. It corresponds to Bloom's Taxonomy Level 3 (Analysis). Its primary target cognitive operation is: Deconstruct.

What You Are Expected to Do

- Identify characters, setting, and plot events with textual grounding
- Distinguish explicitly stated information from implicit inference
- Recognise narrative perspective and authorial craft choices
- Note emotional and psychological states of characters with evidence
- Identify ecological and environmental details embedded in the setting

Licensed for one teacher / one centre. © Jurassic English

SAMPLE · jurassicenglish.com/products

The Analyze Process

Prompt Type	Example Question	Purpose
Elicitation	'What is happening in this scene?'	Establish baseline comprehension
Clarification	'What evidence shows the character is afraid?'	Distinguish observation from inference
Structural	'How does the author organise this information?'	Reveal craft moves and authorial intention
Ecological	'What does the setting tell us about the relationship between the characters and their environment?'	Surface ecological and environmental dimensions

Academic Language Bank

Use these sentence frames in spoken discussion and written work. They are scaffolds, not rules — adapt them as your confidence grows.

Function	Sentence Frame	Use This When...
Analysis	'In this scene, ___ is happening.'	Establish what occurs
Evidence	'The text states / shows / describes ___.'	Ground claims in the text
Inference	'This suggests / implies that ___.'	Move from explicit to implicit
Craft	'The author uses ___ to show ___.'	Identify technique and effect
Character	'The character feels / thinks / wants ___ because ___.'	Internal state with textual grounding
Ecological	'The setting shows the relationship between ___ and the environment by ___.'	Surface ecological dimension

Practice Prompts by Level

Your teacher will select the appropriate prompt level for your series. You may also use prompts above your current level as a stretch challenge.

Foundation / Development (Pre-A1 to A2)

Identify three facts about the main character directly from the text. What does the character do in this scene? What words tell you how the character is feeling?

Expansion / Mastery (A2 to B2)

What evidence shows the character's motivation? How does the author use language to reveal internal conflict? What does the setting contribute to the mood?

Advanced (B2 to C1)

Analyse the narrative perspective and its effect on reader interpretation. What is the author's craft move in this passage? How does the ecological setting function as more than background detail?
