Welcome, Thinking Paleontologist

My name _____ Date _____

A paleontologist digs up old bones and fossils and thinks hard about what they mean. In this workbook **you** dig into stories. You find feeling words. You weigh a choice. You say *because*. You draw what you think.

Every story has four lessons. Every lesson has one page. The four pages always go in the same order:

Dig	Find the feeling words in the story.	Excavation
Weigh	Answer the Big Question. Which side do I stand on?	Strata
Because	Say my idea and my because.	Justification
Show	Draw it. Link it to nature.	Impact

> **Your Word Fossils.** A Word Fossil is a word you dig out of a story and keep forever. Feeling words are the best fossils: happy, worried, brave, proud. Collect as many as you can!

How to use your pages. Your teacher or a grown-up reads the book aloud first. Then you do the page. You can draw, write, trace or ask for help. All answers that come with a *because* are good answers.

Word Fossils we may find:

worried **scared** **dark** **alone** **brave** **soft**

THE BIG QUESTION

Was it a brave choice or a scared choice for the owls to wait quietly?

☐ A brave choice

Draw the face

☐ A scared choice

Draw the face

Tick one box. That is the side you stand on.

A Word Fossil that helps me: _____

> **Talking Stone rule.** Only the person holding the stone speaks. Everyone else listens with eyes and ears.

Grown-up: there is no wrong box. Ask *why* and listen. The reasoning matters, not the answer.
